PRODUCT DESCRIPTION

BS-SSR-700 BATTERY STAND

Battery Stand for two Century-Yuasa SSR700-6 or SSR790-6 Batteries

Imark Stock # [702910](#)

Features:

- Rugged Metal Construction
- Cover to Protect Battery Terminals
- Handles for Manoeuvrability
- Extended Feet to prevent Tipping

DESCRIPTION:

The IMARK BS-SSR700 Battery Stand is specifically designed to accept two Century-Yuasa SSR700-6 or SSR790-6 Solar Batteries. It is designed to be installed against a wall and the feet protrude forwards to preventing the stand from tipping.

The IMARK BS-SSR700 features all metal tubular and sheet steel construction. The battery tray is deep for strength while the cover is designed to protect the battery terminals and to prevent the batteries from tipping. An (optional) extra battery tray can be fitted should users wish to use the stand for other half height batteries.

A gland nut is provided for the battery cable and accepts cable diameters between 13.8 and 18 mm. The gland nut can be installed in the provided holes at each end of the battery stand. The open ends of the tube steel are fitted with tube closures to prevent the ingress of dust and moisture. Large handles are fitted at the top of the stand to assist when manoeuvring the stand into position and Unbrako high tensile fasteners are used for strength. The battery stand is electrostatically powder coated to provide a professional finish.

| SPECIFICATIONS: | |
|---------------------|---|
| Battery Tray Size | 195 (D) x 1100 (L) mm |
| Battery Height | 630 mm (max) |
| Unit Dimensions | 1200 (W) x 204 (D) x 790 (H) mm excluding protrusions |
| Shipping Dimensions | 1400 (W) x 400 (H) x 1000 (D) mm |
